NEW SG CERAMIC BLEND

ABRASIVE TECHNOLOGICAL EXCELLENCE

RED DRAGON NEW SG CERAMIC BLEND

FX21 Red Dragon Fibre Discs

Introducing the New Generation of SG® Ceramic Fibre Discs with a unique blend of SG® Delta grain engineered for high material removal and fast cut rate and performance. This new revolutionary product is a polyvalent product, replacing the Greenlyte Plus providing greater productivity versus competitor products.

- Increased product life – last more than 35% longer
- Aggressive Cut – cuts more than 35% better than competitor products
- Impeccable Finish – Very high quality surface finishing

SG new generation - sharper edges generate an aggressive and low energy cut

Features:

- Unique blend of new SG® Ceramic and SG® Delta
- 0.8mm high strength fibre backing
- Very high density of grain
- Third Layer Supersize with active filler

Benefits:

- Fastest Cut rate & long product Life
- High Material removal even at low pressure
- Cool Cut
- Ideal for stainless Steel

Applications

- Material Removal
- Weld Grinding & Blending
- Light deburring & finishing
- Car manufacturer
- Metal fabrication
- Welding and foundry markets
- Transport markets
